Ms Wilson

I am writing to let you know how I feel about Downtown Morgan Hill.

I recently participated in the Indie Market and fell in love!

I love the way the town participates in so many things.

There's always something very cool going on.

The feel strolling down the streets has a cool "Village" feel which is very comforting.

The lane reduction, which may bother some, was great especially for events and after time, the ones

who may be bothered will get used to it and appreciate the more roomy feel for pedestrians.

I do not live in Morgan Hill but would love to move there if there is a way.

Both of our sons graduated from Sobrato so we have more of a connection with Morgan Hill than San Jose.

Thank You for your time

Donna Serrano
