Subject: Appeal, AP-15-07: Jarvis-MWest

Mr. Mayor and City Council Members,

12/15/2015

I am writing to urge you to uphold the Planning Commission's evaluation of the RDCS Application in regards to the Jarvis-MWest development (AP-15-07).

Over the past year and a half, I have spoken against the MWest project for a variety of reasons. However, the most prominent of my objections points to the way in which MWest has foisted their project upon this town with your assistance.

At a "community meeting", hosted by MWest in October, I was actually told by Kerry Williams what you, *my* elected officials, could and couldn't do in relation to the zoning and design of this project. Furthermore, all input from myself and other residents was negated by Ms. Williams as unfeasible, too expensive, and impractical. The business community was also treated with this same level of closed mindedness when they met with Ms. Williams at TenCate Industries in late August. In short, MWest wants free reign to do as they please, no matter what the eventual consequences to our town.

It seems that the only mitigation to the consequences of making hasty decisions on this matter is to rely on the advice sent to you the Planning Commission. They have a broader view and more detailed understanding of how the myriad of developments, currently underway and soon to come, could work together and be less detrimental to our town. Please uphold their evaluation of the RDCS Application for the Jarvis-MWest site.

Regards,

Rosemary Thompson
