**Subject:** Re: City Council Agenda Preview for February 15, 2017

Maureen,

thank you for notifying me about the interviews and agenda for City Council meeting on Feb/15/2017.

I browsed thro' the other resumes briefly. Clearly Norma Bussing has the required type of experience for the position. I would have dropped out if there were more applicants similarly qualified.

I do appreciate art but have no passion for art. I appreciate Science and have ideological interests in governance. My creative interests are limited to reading and writing. So I might be able to help a little on the commissions. I am approaching this opportunity more with a view towards learning than making immediate contributions.

I think I had two choices. Either to attempt to get involved in community or to lead a more detached life. I chose the former to give it a try. I hope I won't have to regret too much, if at all.

Thank you and the City for the opportunity. Regards.

Ramesh
