REPORT NARRATIVE:

Since 1977, the City has amassed one of the largest Below Market Rate ("BMR") property portfolios in the State, per capita, and established a robust BMR Program that provides much needed homeownership opportunities and affordability to low-income and moderate-income households. The BMR Program comprises more than 500 homes with an average of 12-15 homes added to the Program each year. The Residential Development Control System ("RDSCS") awards competing development points for the provision of BMR low-income and moderate-income housing. Following up on the BMR Resolution that was adopted by City Council on May 18, 2016, with the intent to reaffirm the City's nearly forty year commitment to preserve and create affordable housing, the Housing Team is recommending that the City Council adopt a Below Market Rate Ordinance. The

purpose of the Ordinance is to further formalize the BMR Program, and succinctly codify the following:

- City Manager Authority to respond to Program needs, to approve BMR Program Guidelines and BMR agreements and letters
- Reaffirm the Program Purpose and Intent
- Administrator Role, Duties and Acquisition Authority
- Enforcement of Occupancy and Sale Requirements, Enforcement of Rules Restricting Owner's ability to sell and finance to ensure that the affordability of the BMR home is preserved, and as BMR homes become available for sale the opportunity is provided to income qualified households

The BMR Ordinance, coupled with the BMR resolution adopted on May 18, provides the authority and the process for continued implementation of this program.
